In 2009, software that offered free calls and messages could be found mostly on desktops, not smartphones.. Although you can use it on the web, WhatsApp for Mac has launched a desktop app for both Windows and Mac OS.. The desktop app helps sync your chats and contacts to your computer Handy really, because it lets you continue working away on your Mac while staying connected.. With 1 billion active users, Whatsapp will connect you with the people that matter to you the most, both near and far.. No surprise there, given that WhatsApp's focus is mobile messaging Another feature that's not on the desktop app is GPS sharing, which lets you send your location to your WhatsApp group or contact. 773a7aa168 [An Introduction To Finite Element Method Reddy Pdf Editor](#)
